

INDUSTRIAL AND SPECIAL PAPERS

PAPERS WITH AND WITHOUT VCI

Industrial and Special Papers from MetPro

Coated and Laminated Paper for Every Application

MetPro Group offers a wide variety of packaging products including our extensive range of coated and laminated papers. We use the highest quality packaging materials and up-to-date processing technologies to meet our customer's needs.

MetPro Group is dedicated to meeting industry standards and our products and packaging solutions are developed in collaboration with customers to ensure adherence to both customer and industry expectations.

Our approach to customer satisfaction is achieved by clearly understanding your needs, so that we can offer the most suitable and cost-effective solution to our clients.

Paper

Product

Application

MetPro Kraft Union Paper©

Linear Paper Reinforced with Bitumen

- Reinforced with Bitumen
- Optimal application as a waterproof liner for pallets and cases
- Available in rolls or sheets
- Available in 120 to 210 gsm

MetPro Self Seal Kraft Paper©

Self-seal Kraft Paper

- Only sticks to itself and leaves no residue when removed
- The cohesive properties envelope the product for packing
- Printed in one or two colours
- Available in 70 to 100 gsm

MetPro Waxed Paper©

Waxed Engineering Paper

- Grease and oil resistant properties
- Available with VCI and one-side wax to form an additional moisture barrier
- Available in rolls or sheets
- Available in 50 to 150 gsm

Laminate

Product

MetPro Kraft Paper Extra®

Reinforced waterproof paper laminate

Application

- Extra strength for export packing cases
- Reinforcement in one or two directions
- Waterproof and extremely tear resistant
- Available in 145 to 230 gsm

MetPro Fabric Reinforced Paper®

A woven polypropylene reinforced paper laminate

- Heavy-duty export liner, especially suited for packing steel coils or lining export packaging cases
- Variety of grammages and thicknesses available
- Waterproof with VCI treatment on request
- Deliverable in rolls
- Available in 150 to 190 gsm

MetPro Durable®

Reinforced PE paper laminate

- Especially designed to wrap sheet steel or sheet metal products
- Reinforcement in one or two directions
- Variable colours with or without VCI treatment
- Printed in one or two colours
- Available in 115 to 155 gsm

MetPro Jute®

Bitumen-laminated liner paper with hessian

- Heavy duty export packaging for railway transport and box lining or for granulates
- Available in rolls or sheets
- Available without paper laminate
- Jute with liner paper, 375 gsm

Crepe

Product

MetPro Flexicrepe®

Glass fibre reinforced crepe paper laminate

Application

- Laminated crepe paper with 2-way glass fibres
- Ideal for wrapping steel parts
- Strong and mouldable
- Fits perfectly to the shape of the packaged goods

MetPro Waxcrepe®

Waxed, creped Kraft paper

- Waterproof, with a high strength factor
- Used in combination with spiral winding machines
- Ideally suited for steel and wire coils

Board

Product

MetPro Corrugated VCI Board®

VCI coated corrugated board

Application

- Can be cut to form a variety of different shapes
- Ideal for packaging steel, tinplate, aluminium, nickel and cast iron
- Deliverable in rolls or sheets
- Available single or double faced
- Available without VCI coating upon request

MetPro Corrugated Locktip Board SK®

Self-adhesive corrugated board

- Corrugated high-tensile kraft board, 255 gsm (standard)
- Adheres to itself
- Stable corrugation for optimum product protection
- Ideal for transport packages and mail order
- Deliverable in rolls or sheets

All of the above product recommendations should be validated for compatibility with the customer's products. Further product variations are also available upon request.

Additional Features:

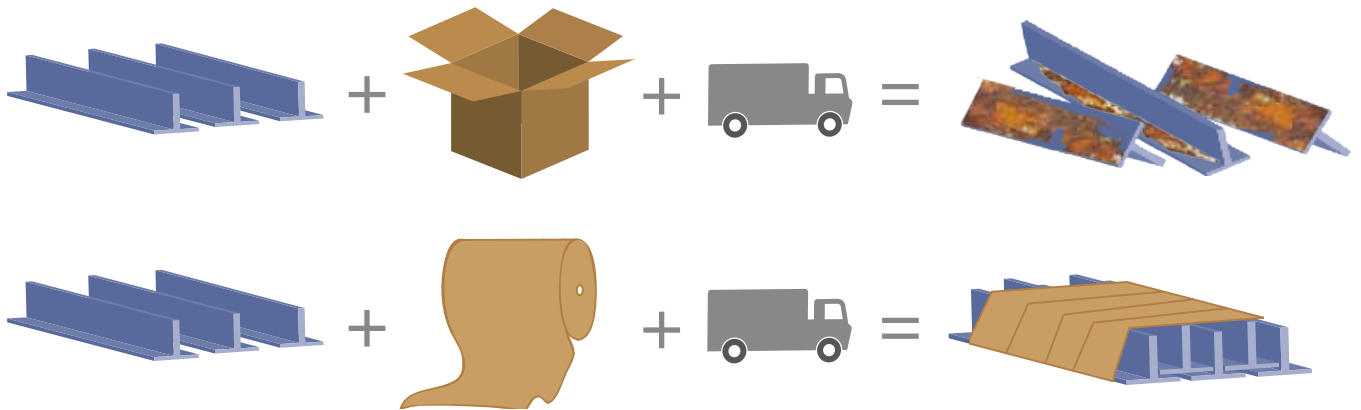

- Cut sheet sizes or sheets perforated on a roll
- Printing with VCI and PE-symbols
- Printing with your own company logo
- Colourless or special colour
- MetProGrip – Anti-slip property
